- Dan started meeting with what he thought we needed to address the MOU. He said we need to ask the Fish, Game & Parks if we could get all Sunday & Monday as our Members Days.
- Casey said that will be the only thing that can make the timer work correctly.
- Dan said that Tyrel's boss would be the guy to say if we could have Sunday and Monday every week.
- Tom asked if we had to have this request in writing, and Dan said we could update in the MOU meeting.
- Dianna asked about our insurance on the club and members. Still not a clear answer until we hear from the Agent.
- Tom asked if we needed to send a certificate to the State? Dan thought the Treasure was doing that.
- The Annual Report was brought up, and it seems we're delinquent. It gives the State the amount of hours / material / Jobs / and cost of our supplies we provide to the range. We need to work on getting this completed.
- Other subjects came up, but will be decided on during a members meeting.
- One was how to get our water tank filled.
- Talked about shotgun patterning area.
- Casey brought up having some instructors hold classes at our range.
- Overall The MOU needs reports worked on / Insurance Update / and ask the State for approval of Member Days.
- Dan called for the meeting to be adjourned.
